Productivity challenges?
That’s an opportunity

You should expect more from your technology—the workplace is complex enough as it is.

With Office 365 as a foundation, your productivity can soar to its full, collaborative potential. And with Zix’s Advanced Security Audit, you’ll get unique insight into your environment’s vulnerabilities as well as remediation tools and ongoing protection. It’s all wrapped in Zix’s Phenomenal Experience which includes 24/7/365 support that resolves 97% of inquiries on the first call.

Join forces with the #1 Microsoft partner and leading cloud email productivity, security, and compliance platform.
Modern Workplace Challenges

A. Limited collaboration
Employees are disconnected from the people and information they need.

Only 60% of work time is spent being productive. - Atlassian

“Who has that information?”

B. Hostile environment
Lack of communication oversight, HR and legal don’t have visibility.

“I can’t believe what he just said to me.”

C. Increased vulnerability
The move to the cloud and new citizen integrators create tool sprawl and risk.

“The email looked like it was from the CEO.”

D. Restrictive access
Managing your team’s office apps pulls you away from more important work.

“All I do is handle password requests.”

E. Business disruption
Institutional reluctance to evolve and experiment.

“Well, that’s not how we do things here.”
