

# Need to stay productive, secure, and compliant?

The Zix Secure Cloud contains everything your organization needs to communicate freely, work from anywhere, and grow continuously.

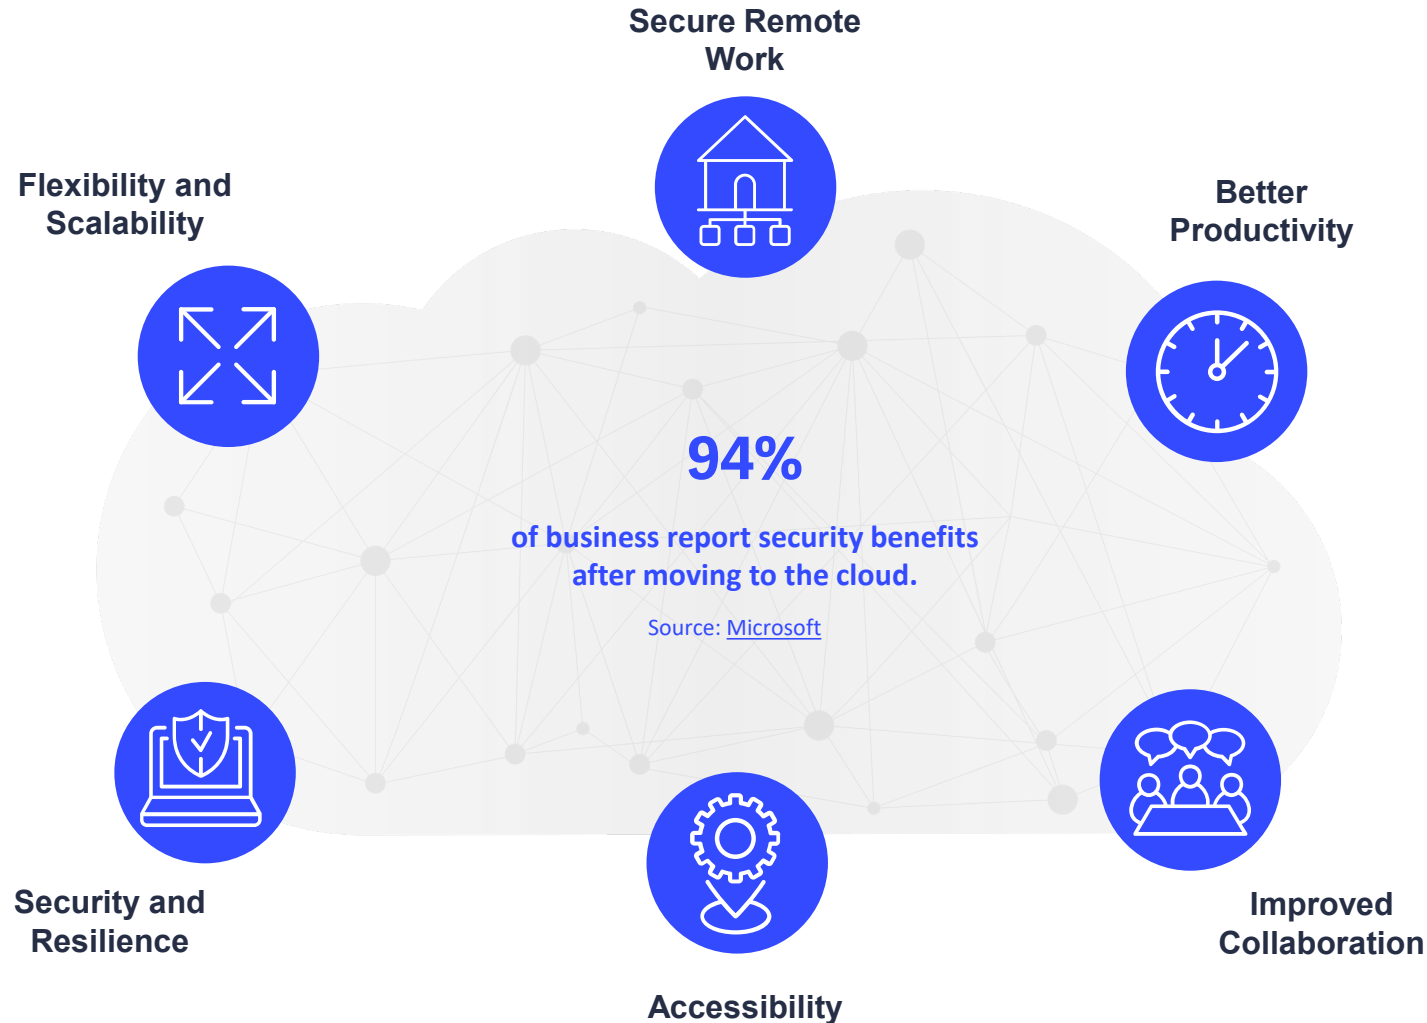

Zix offers a complete solution for cyber risk. It's one integrated cloud platform with comprehensive email security, data loss prevention, email encryption, business communications archiving (email, messaging, new media), and Microsoft 365. Plus, it's all backed by Zix's Phenomenal Care and 24/7 support.

The Zix Secure Cloud helps organizations of all sizes through cyber transformation.

# Why Move to the Cloud?

Enable your remote workforce, reduce costs, and say goodbye to updating old systems.

## Why Now?

Rising costs

IT burden

Security risk

## Why Zix Secure Cloud?

Accelerate Innovation

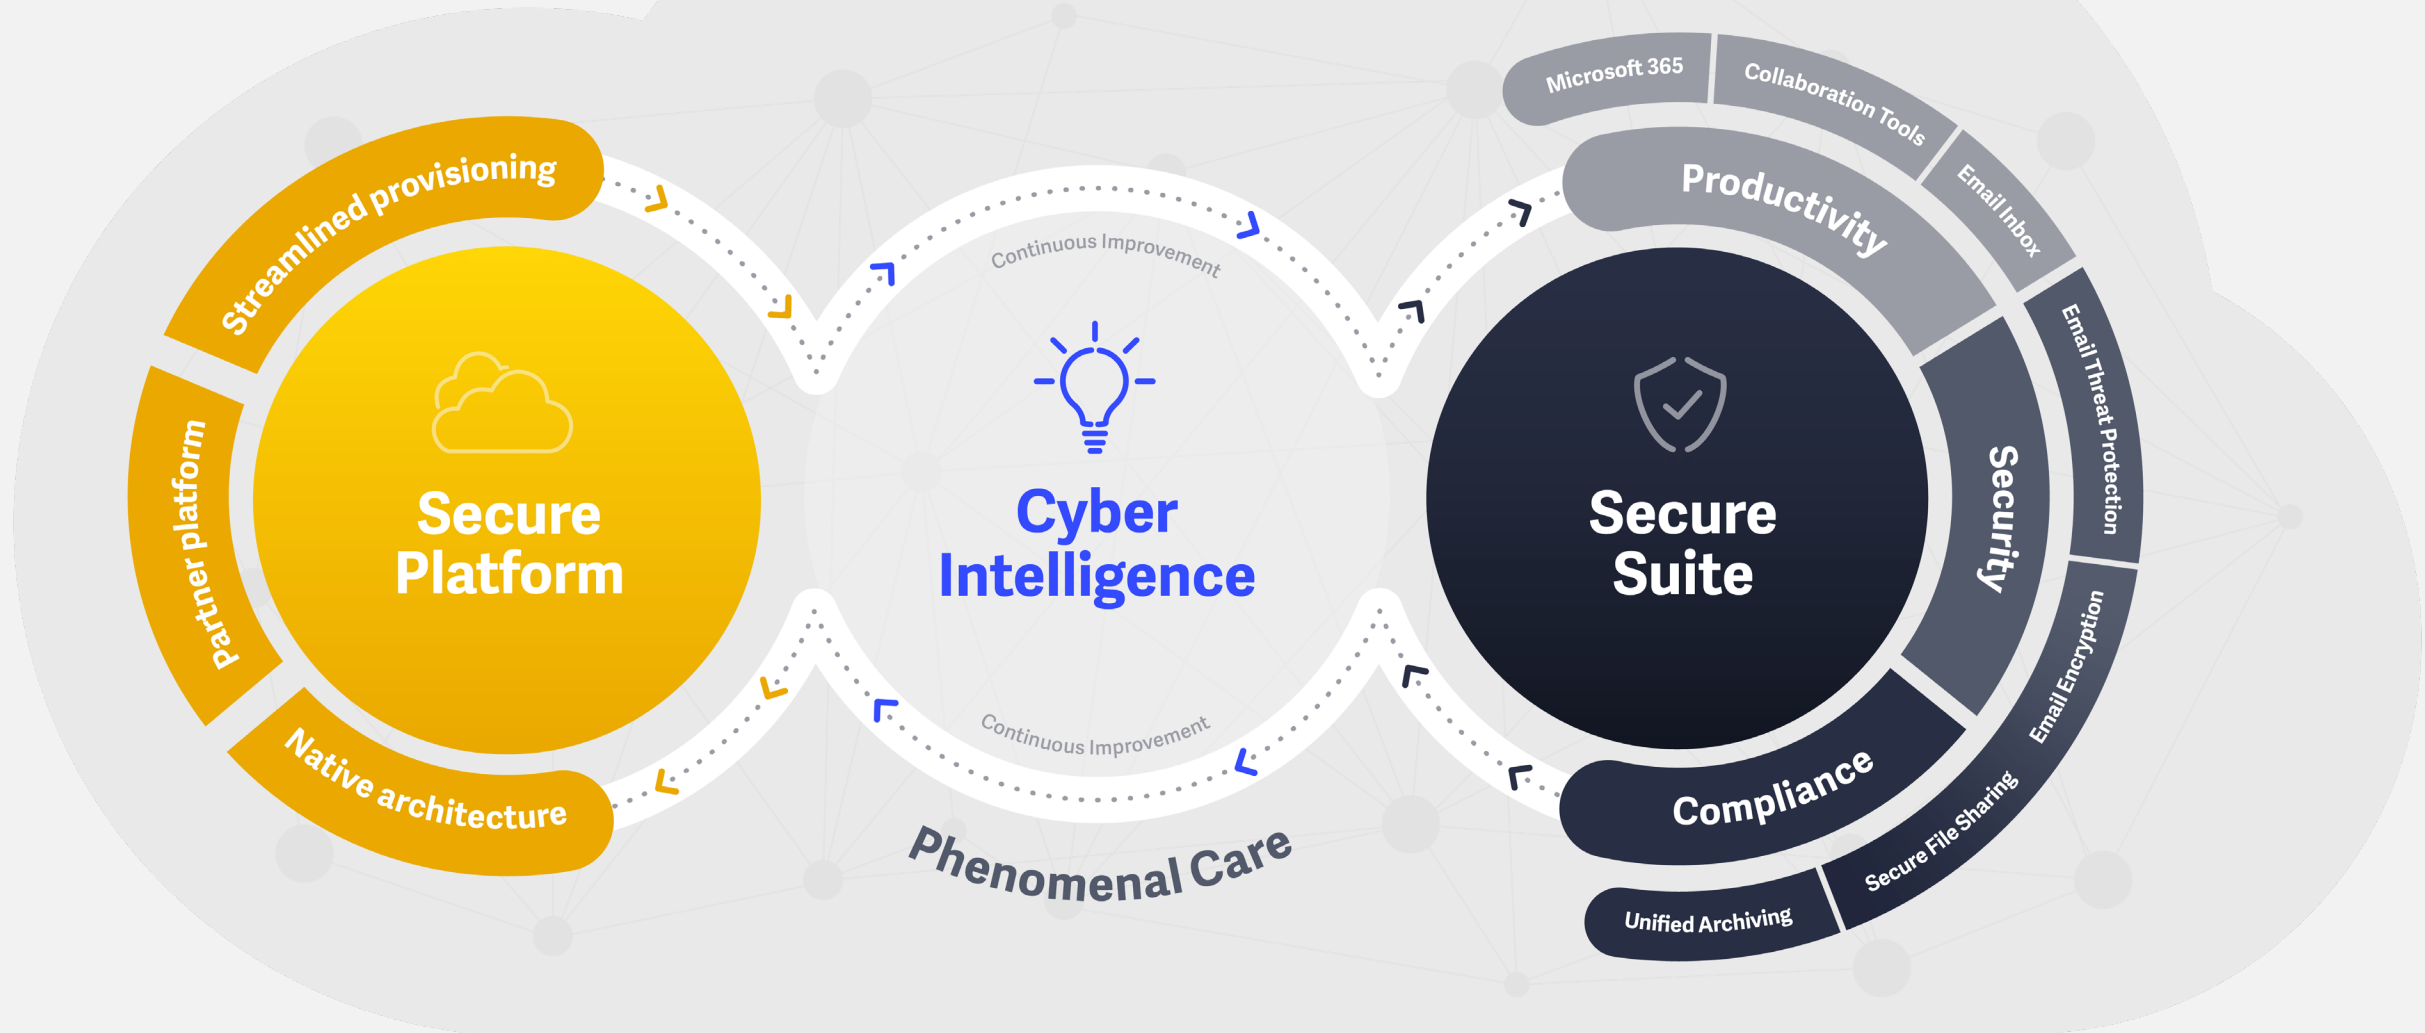

Manage risk with ease

Grow the business

# There are three elements to the Zix Secure Cloud

# The Secure Cloud provides everything

## Productivity

### Work from Anywhere, Communicate Freely

Work from anywhere with Microsoft 365 apps, Exchange Mailbox, OneDrive, SharePoint, Yammer, Teams, Stream, and more. When Zix manages your Microsoft 365, it can provide unique insight into obscure vulnerabilities in your environment.

Zix is the #1 provider of Microsoft 365 in North America with over 10,000 successful migrations.

*Microsoft 365 | Guided migration | Microsoft 365 Security Audit*

## Security

### Completely Secure Your Environment

Zix offers one integrated platform for best-in-class email security, threat protection, and real-time threat analysis. Guard against phishing, zero-hour malware, ransomware, business email compromise (BEC), and more, all automatically, with filters that adapt and learn. Plus, anticipate new threats with the help of Zix's 24/7 Threat Analyst Team.

#### Advanced Email Security

*Secure Email Gateway | Email Threat Protection | EE for Data Protection and Corporate Governance | DLP Libraries | APIs*

#### Business Resilience

*Email Continuity*

## Compliance

### Get Ahead of Compliance and Stay There

Zix Secure Cloud offers the information archiving, email security, hosting, eDiscovery, and out-of-the-box templates to help you stay ahead of regulation, comply automatically, and respond quickly to surprise audits and litigation.

*Information Archiving | eDiscovery | DLP Libraries | Secure File Share*

# ... from one simple interface

## Growth

### Provision in Record Time and Stay Current

*57% of CIOs say “simple and low-touch administration” is the #1 attribute of a security software provider. - Pulse Q&A*

Zix offers a simple but powerful user interface that's designed to deploy quickly, reduce the burden on end-users, and integrate with your existing environment. It's cloud native and exhibits an unusually quick time to value.

*Phenomenal Care | User-friendly interface | Guided migration*

## Reliability

### Phenomenal Care

Zix's user-friendly interface reduces the need for support, but when it comes up, Zix's care team resolves 97% of issues on the first call. As one of the top Microsoft 365 resellers, Zix has unique expertise and a special relationship that allows its care team to act as your advocate so you don't have to wait on hold.

**24/7/265 U.S.-based support available by email, phone, or chat**  
*White glove migration assistance | 17+ year relationship with Microsoft*

**Zix enables your cloud transformation and frees you to think forward**
